LIFT SWING TELESCOPING GATE

SCALE:  0 1 2 3 FT.

SCALE:  0 2 4 6 FT.

NOTE: THE CUTTING CHUTE IS 12 INCHES ON THE BOTTOM AND 24 INCHES AT THE TOP AND IS 33 TO 36 INCHES HIGH. CONCRETE IS USED IN THE CRUSH PENS AND CUTTING CHUTE. A CONCRETE FOOT BATH IS USED WITH PROVISION FOR DRAINAGE. A PLWOOD WALL OF $\frac{1}{2}$ INCH EXTERIOR PLWOOD FOLDS DOWN OVER THE FOOT BATH WHEN NOT IN USE TO GIVE ACCESS TO THAT SIDE OF THE CUTTING CHUTE. THIS ALSO REDUCES EVAPORATION OF THE LIQUID. ABOUT 5 SQUARE FEET REQUIRED PER SHEEP IN PENS. THE MINIMUM HEIGHT FOR THE CORRAL, FENCE IS 42 INCHES. THE WORKING AREA CHUTES, CUTTING GATES AND CRUSH SHOULD BE A HEIGHT TO PERMIT A PERSON TO CLIMB OVER EASILY. THIS IS ABOUT 36 INCHES.

SHEEP CORRAL
