

V(A). Planned Program (Summary)

Program #2

1. Name of the Planned Program

Strong Families, Healthy Homes

2. Brief summary about Planned Program

Extension has active work teams in the areas of:

- Family Economic Stability - family financial management

- Healthy Homes - indoor air quality
- Growing Strong Colorado Families In addition we have a strong program in agribility that has significant outcomes.

3. Program existence : New (One year or less)

4. Program duration : Short-Term (One year or less)

5. Expending formula funds or state-matching funds : No

6. Expending other than formula funds or state-matching funds : No

V(B). Program Knowledge Area(s)

1. Program Knowledge Areas and Percentage

KA Code	Knowledge Area	%1862 Extension	%1890 Extension	%1862 Research	%1890 Research
723	Hazards to Human Health and Safety	10%		10%

V(C). Planned Program (Situation and Scope)

1. Situation and priorities

There is a diversity of problems facing Colorado's families and households including:

- financial instability (increasing rates of bankruptcy, economic crises loss of jobs)
- increasing numbers of youth in daycare, after school care, and self care
- lack of parenting skills and/or lack of opportunities to strengthen parenting skills
- exposure to indoor air pollutants resulting in long-term health issues
- continued high levels of on-farm accidents resulting in serious injury and disability

Colorado has work teams who have identified each of these issues as a priority and will be working in each of these areas to improve individuals' and families' lives.

2. Scope of the Program

- In-State Extension
- Multistate Extension

V(D). Planned Program (Assumptions and Goals)

1. Assumptions made for the Program

Assumptions for this program include:

- If given the opportunity to learn financial management skills, individuals will choose to practice those skills, resulting in increased financial stability
- Training for day care and after-school care providers will increase providers' ability to assure a safe and educational environment, resulting in increased student learning and school readiness
- Given the opportunity to learn parenting skills, parents will parent more appropriately resulting in less stress and more well-adjusted children.
- Providing indoor air quality education, especially as it relates to radon or other pollutants, will allow individuals to choose methods to reduce exposure, resulting in less health related issues.
- Farm families who have access to information on coping with disabilities within their families will eagerly put new knowledge to work.

2. Ultimate goal(s) of this Program

Ultimate goals of this program are:

- Increased knowledge and practice of basic financial management skills including saving for emergencies and retirement.
- Improved quality of child and out-of-school-age care statewide, including remote and difficult to reach populations.
- Decreases in family management problems, including reduced problem behaviors in youth and increased family bonding and attachment (increased family stability).
- Increased number of homes tested and mitigated for for radon and other health hazards and increased documentation available to potential buyers of existing homes regarding "healthy home history."
- Increased knowlege and skills in dealing with disabilities in the farm/ranch environment will result in fewer accidents and injuries and more profitable farming/ranching operations.

V(E). Planned Program (Inputs)

1. Estimated Number of professional FTE/SYs to be budgeted for this Program

Year	Extension		Research	
	1862	1890	1862	1890
2010	12.0	0.0	0.0	0.0

2014	12.0	0.0	0.0	0.0

V(F). Planned Program (Activity)

1. Activity for the Program

Educational activities include:

- Adoption of curriculum, training for agents, educational programs on financial management for families.
- Training

(face-to-face and on-line) for care givers. •Training for couples, parents of young children and disabled farmers •Parenting classes for parents and train-the-trainer classes for individuals who work with parents •Training using EPA-based indoor air quality education for agents, then the general public, builders, realtors, homeowner's associations, and home owners.

2. Type(s) of methods to be used to reach direct and indirect contacts

Extension	
Direct Methods	Indirect Methods
<ul style="list-style-type: none"> ● Workshop ● Group Discussion ● Demonstrations ● Education Class ● One-on-One Intervention 	<ul style="list-style-type: none"> ● Web sites ● Newsletters ● Public Service Announcement

3. Description of targeted audience

Colorado families, including diverse and difficult- to-reach populations. Care givers in day care and out-of-school-age care locations. Parents of young children. Disabled farmers. Owners and potential owners of homes.

V(G). Planned Program (Outputs)

1. Standard output measures

Target for the number of persons(contacts) to be reached through direct and indirect contact methods

V(I). State Defined Outcome

O. No	Outcome Name
1	Percent of attendees gaining knowledge in parenting skills, effective communication, positive discipline, stress management.
2	Percent of participants changing attitudes regarding parenting, communication, positive discipline, stress management.
3	Percent of participants intending to change behavior as a result of parenting training.
4	Percent of individuals documenting change in behavior in parenting skills, communication, positive discipline, stress management.
5	Percent of attendees in indoor air quality training reporting increase in knowledge.
6	Percent of attendees changing attitudes/intending to change behavior based on knowledge gained at training on indoor air quality.
7	Percent of participants reporting change in behavior based on knowledge gained through training in indoor air quality.
8	Individual homes, and thus communities will have significantly improved indoor air quality based on remediation of indoor air pollutants.
9	Percent of participants demonstrating change in knowledge of financial management.
10	Percent of participants intending to change behavior/reporting change in attitudes regarding financial management.
11	Percent of participants in financial management training demonstrating change in behavior.
12	Family financial health significantly improved due to changes based on skills learned in financial management trainings.
13	Percent of individuals demonstrating increase in knowledge regarding strategies for dealing with disabilities on the farm/ranch.
14	Percent of participants in agrability workshops reporting change in behavior regarding coping with disabilities on the farm/ranch.

V(J). Planned Program (External Factors)

1. External Factors which may affect Outcomes

- Public Policy changes
- Populations changes (immigration,new cultural groupings,etc.)
- Competing Programatic Challenges
- Competing Public priorities
- Appropriations changes
- Economy

Description

Individuals' ability to attend fee-for-service programs may be impacted by economic downturns.Extension's ability to provide programming and scholarships for these programs may be impacted if appropriations continue to decrease and staff is lost.Absence of a Family Resource Specialistlimits agents' access to research-based information they can share with Coloradoans.

V(K). Planned Program (Evaluation Studies and Data Collection)

1. Evaluation Studies Planned

- During (during program)
- After Only (post program)
- Case Study
- Before-After (before and after program)
- Comparison between locales where the program operates and sites without program intervention
